

# AgEnterprise

## Plant Industry & Pesticides

### Dept of AG Management Systems

AgEnterprise is the first Enterprise level USA built State Dept of Agriculture database management systems for Programs, Licensing, Inspections, Product Registration, Enforcement, Tonnage, Mapping, Traceability and more. AgEnterprise gives the power back to states with our License Builder, Report Builder, Mobile / Tablet Inspection platform and a client portal to get more electronic data from constituents. This platform will eventually have the ability to support the entire agency or remain niche with a single division focus. AgEnterprise is the USA IT build answer for State Dept of AG.
